Security

The following security schemes are used by this API for authentication and authorization. These must be taken into account in every request unless otherwise stated.

API Key Authentication

This API is secured through API Keys which you must obtain separately.

Api Key

To authenticate requests, include `api_key` as a request header.

```
GET /example
Host: example.com
api_key: SAMPLE-API-KEY-a29@102&3djSF9
```

OAuth 2.0 Authorization

This API is secured using the OAuth 2.0 authorization framework.

Implicit Flow

This API supports the implicit flow.

- Authorization URL: https://petstore3.swagger.io/oauth/authorize
- Scopes:

- `write:pets` : modify pets in your account
- `read:pets` : read your pets
